

PT. Germantara Tooling Service Indonesia

Kita sudah berdiri lama untuk memenuhi kebutuhan-kebutuhan peralatan perkakas di industri manufaktur Indonesia, dengan teknologi dan inovasi terbaru setiap tahun.

We have been long-established to meet the needs of tooling equipment for the manufacturing industry in Indonesia, with the newest technology and innovation every year.

- Sutikno H (CEO)

# About Us

PT. Germantara Tooling Service Indonesia was established in 1986. We specialize in high precision tools & advance workshop equipments. Our company is the distributor for a variety of worldwide known brands, with us being the only sole agent in Indonesia for several brands that we carry. Our customers range from private companies to government entities across the country.

We are currently operating in 3 major cities in Indonesia, with our headquarter located in Jakarta. We have branch offices in both Surabaya & Bandung respectively, and to serve our customers better, we have expanded our Jakarta sales operational activities and established 3 additional representative offices in Bogor, Cilegon, and Cikarang.

Our mission is to provide customers with the latest and highest quality of advanced technology to meet all types of manufacturing industrial needs in Indonesia.

MILLING

DRILLING

INSERTS

TURNING

REAMERS

TAP AND THREAD

BORING

BLADES AND SAWS

 BORE FINISHING & LAPPING MACHINE

ARBORS

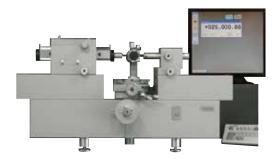

MEASURING INSTRUMENTS

CONTROLLERS, SCALES, AND ENCODERS

 UNIVERSAL LENGTH MEASUREMENT

 COORDINATE MEASURING MACHINES

SHRINKFIT MACHINES

• GUNDRILL MACHINES

# **Other Products**

Grinding Wheels, Deburring Tools, Abrasives Equipments, Lapping & Polishing Equipments, Gauges and many more.

Milling, Turning tools, Hole making & finishing, Tapping, Tooling System, Wear parts

The new technology in Deburring, Polishing, Producing controlled radius & Surface finishing

Multibore & Digibore with standard and special design according to the customers needs

Micro-drills, Gun drills, Interchangeable insert drilling system multiplex, Classical HSS twist drill, Straight fluted carbide drill, Step drill & center, TS drills (solid carbide)

Inductive Shrink units, Tool Holders, Tool Gauges, Test Bars, Tool Pre-setter, Spindles

Gundrills machines, Gundrill tools, Re-grinding machines

Special cutting tools used in the wood processing, plastic, composite materials and metals industries

Cutting tools, Hand tools, General tools, Operating tools, Diamond Tools, Ceramic grinding tools, Honing tools, Chemical products, etc.

Cutting Taps, Roll Taps, Thread Milling Cutters, Tap Holders,

Taps, Cold forming taps, Dies, Gauges

High performance reamers with inner coolant supply, Machine reamers, Hand reamers, Reamers for taper bore holes, Core drills, Taper drills, Counter sinks, counter bores, Deburring tools

Diamond powder, Lapping & Polishing, Grinding, Bore Finishing/Honing, and Mold & Die

Specializing in Surface finishing for Die and Mould making company, Sand blasting machines & Welding machines for mould

APC milling chucks, Drill chucks & Arbors with high clamping force

Ultra Micro Grain Carbide Endmills & Ball Nose

High standard quality for machine tools equipments: Chuck, Drill Chuck, Vise, Arbor, Live and dead centre

Bandsaw blade HSS, Bi-Metal hand & power hacksaw blades, Carbon steel, Carbide grit, Carbide tipped

Tool bits, Engraving cutters, Single flute cutter for copy routers, Carbide tipped saw blades, Segmental saw blades, Metal cutting circular saw of HSSS, Solid carbide sitting saws, etc.

Spindle repair, Spindles, Spindle components

"Global" most friendly use of CNC and CMM, Most accelerate and accurate in its class & CAD bases software; direct link to UG, CATIA, STEP, with powerful PCDMIS software

Calipers, Micrometers, Dial indicators, Dial gauges, Height gauge, Internal measurements, Gauge Block, GB Calibrator, Electronic probes & Custom measurements

Ideal tool for the dimensional inspection of large thin walled parts such as car bodies and subassemblies, aircraft, etc

Portable CMM, Most ergonomic, light-weight, high strength design incorporating high accuracy make the arm ideal measuring solution for automotive, sub assembling, mould & dies, etc

Large-Scale portable measuring up to 80m, ideal for aircraft, automotive, shipyard, wind turbine, etc

World highest Precision Coordinate Measuring Machine (CMM)

Machine Tools Probe, Laser interferometer calibration & CMM Probes

Measuring system, Encoder, Digital Readout, CNC control retrofit & Heidenhain Service

Universal Length Measurement, Gage Inspection, Indicator Inspection, Angle Measurement
